

Our Environmental Mission

"To aid businesses world wide in utilising web technologies for the more efficient use of scarce resources and to reduce their carbon footprint"

sitehelpdesk.com recognises the importance of protecting the environment and we take this in to consideration at all stages of decision-making. Through sales, development, production, distribution and marketing processes.

Environmental Policy

We recognise that virtually all the activities of an organisation or an individual have some impact on the environment. Our aim is to reduce the impact of our own organisation through a programme of continuous improvement and by implementing process that have the minimum impact on the environment.

In this respect our policy is to:

- Quantify and monitor all environmental impacts of the business, including new projects.
- Comply with current legislation and the EM14001 standard.
- Integrate environmental objectives into relevant business decisions in a cost-efficient manner.
- Require all colleagues to address environmental responsibilities within the framework of normal operating procedures.
- Minimise waste and seek to recover as much as is economically practical and ensure the remainder is disposed of responsibly.
- Seek out and Select suppliers that have a coherent policy for protecting the environment.
- Enhance awareness of relevant issues among customers, colleagues and others who have an interest in our business.
- Ensure that our products and services are designed and implemented in a way that will help others to benefit from our own initiatives.
